How did you receive one?

He didn't post anything about a vouch copy and its disallowed to ask.

Im pretty dure you won't risk your account for a gamble script vouch copy.

You also didn't post on the thread either.

So are you a friend of OP or what?

Yeah sure, i'll pass.

Also the fact that you claim that you script id 100% safe and it revolutionizes the gamble script market thst this will not bust.

At least be honest about it to your customers that every script can bust eventually, especially in freaking bustadice which is basically bustabit on anabolics.

The terms of service at the bottom of your thread design that is unreadable on mobile and almost invisible for some reason Imfao?

I read the text that is visible, and you clearly advertise this to be entirely safe and it can't be busted and we will all see amazing profits, always 24/7.

You are borderline scamming with false advertisement like this and i'm about to open a community alert for you.

If you don't want HF members to post on your thread, then don't post your thread on HF.

You are borderline scamming here with such false advertisement and people should be made aware of that, if you don't do it, then i will.

of course we make losses. if anyone says otherwise they lie.

when you made 0.010 btc profit in half an hour with \$70 deposit, can you repeat this every time with \$70 deposit? is it possible?

so you can also lose \$70, but if you win you will profit 0.010 btc in half an hour?

No kiddo, script is safe because it uses a technique that helps him know when he should bet for specific multipliers, as mentioned in every damn post I do here, /GAMBLING IS GAMBLING ALWAYS POSSIBLE TO LOSE/

I happen to lose once but recovered, and all my customers currently profited, you just need to have some luck and know when to stop, if you really not interested in the script no need to post for no reason, trust me I won't steal people, many people that dealt with me with my other services already understood that I am trustworthy.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

For anyone wondering how his script works, it basically bets 0.01 bits, skips and continues until it finds a lose streak of x, after that streak is found ex 24 loses at 50%, it bets a larger amount. My guess is on loss it then bets a incremented bet of the initial ex 10x bet.
