Thread: [Options Trading Mentorship/Signals](#)

BullTrading - December 21, 2020, 11:39 am

Hello, Fellow Traders of Hackforums,

Today, I am bringing a service that will best benefit those who are struggling to make money with trading and who want to succeed in the high cortisol days of the options trading.

I am bringing two services to best benefit the biggest demographic of users.

1.) Mentorship

This is for those who have no idea what options trading is or have a small idea, but no idea where to get started, how to get started etc...

I am bringing a comprehensive 1:1 mentorship explaining the following in detail and live trading with you:

- What Options are
- What Premiums are
- What a Strike Price is
- The Greeks
- OTM vs. ITM (why is it important)
- Simple and proven dated back strategies
- How to pick the right stock for options trading

2.) Signals

For those who already know how to options trade, but are losing money every trade due to bad underlying stocks this is for you. I issue out a list of the top 5 stocks of the week to day trade and swing trade options. you will be given the following:

- The expiry date
- The Strike Price
- The ticker
- 2 take profits
- 2 stop losses

Prices:

Mentorship: \$200 per customer. One time fee

Signals: \$300 Per month. you will be given 5 signals a week, 20 signals a month.

Main brokers we will be trading on: Webull, Robinhood, and Thinkorswim

Although you can use any brokerage you feel most comfortable with
[contract=tid]Start Contract[/contract]

How can one trust you for your word only without any evidence or proof?

BullTrading - December 23, 2020, 9:48 pm

MM can hold funds during any of the two processes. now scurry along little ones

Swip3r - December 23, 2020, 9:52 pm

ima fuk around and buy 3 signal groups and sell a "HQ" membership relay group oof new ebook right there \$\$\$

jk GLWS maybe show some profits other more reputable people have been doing this here

thanks man. more than happy to show my current portfolio to any of those who are genuinely interested and willing to use a trusted mm :)

BullTrading - December 27, 2020, 3:05 pm

bumping this to the top. will use a trusted mm for those who are skeptical
