Register a new .ONLINE, .STORE or .EU domain for FREE for 1 year.

They are also providing web hosting for 3 months completely FREE !!!

First, go to the giveaway link and order your desired extension domain, to order you need to register first in the website, so do that before trying to order. then it will ask you European number and address, you can find one easily. i am not going to say how you can find.

And finally, after you complete order, within 5-10 minutes, you will get the domain, with an email from ICANN to verify the information, you have to verify your email as per ICANN rule, so try to use a real email address.

you can use google translate to understand the Czech language

No need CC, no need VPN, no need phone number

Address, Phone generators are perfect for this
