Thread: [How To View And Get Hidden Contents In vBulletin 4.2.2 Forum?](#)

jovate - December 26, 2020, 11:14 am

Forum Admin Disabled The Registration...Hidden The Contents.

So, I Want To Know How To View And Get Hidden Contents In vBulletin 4.2.2 Forum?

And Also, Hide Hack Plugin In That Forum.

Is That Any Tricks Or Tutorials For Pick Them.

Help, Please!

Found this on Packet Storm:

[vBulletin 4.x SQL Injection](#)

1. Find SQL Injection inject point
2. Extract login details of accounts in the target
3. Login using an account with enough privileges
4. Access hidden content

Easy in theory. Main problem is finding the inject point.

Cheers.

HF is not a place to ask for free services. Some people will do some things for you in marketing sections, but otherwise you should learn to do it yourself.
