Portforwarding I do assist with, and I will help you setup your RAT with a VPN (assuming you're able to configure it and connect to it without my assistance).

Other than that thank you greatly for the review, good sir.??

That was a service that one of my friends was running and I was promoting for him haha.

He's since abandoned the project so I'm not longer able to offer free subscriptions to clients, unfortunately.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
