Can we use the same domain in multiple accounts? Like, if one account gets suspend, do we need a new domain to run ads in another account or we can use the same domain?

I think it can cause a problem but I have seen many people using the same website over and over

again even after getting suspended. But its risky so you should avoid it.

Started contract - Will give this a go and give feedback

riekal - January 7, 2021, 4:04 pm

I want one of these...or 50. Lets see how the first one goes. Starting a contract.

Master Beta - January 13, 2021, 4:12 pm

Firstly I'd like to praise VirtualBand for the prompt and continued support and patience.

I am relatively new to this method and it was really easy to get a handle on. The instructions and available support over skype helped a lot.

To be clear it is A\$. Not an issue for me I just wanted to do some testing for a project.

The account was delivered after 48 hours.

And I think this was down to some testing or Procurement issues.

That being said. I've had a few days to test and everything seems to be running smoothly. I had an issue with my campaign, but it was sorted with a new deployed ad.

Only time will tell if this stays active. But if so I fully intend to start another contract.

Thank you again for good service and support. Good luck with your sales.

XMRFISHY - January 14, 2021, 2:11 am

Thank you very much!

Great support and everything worked exactly as described.

XMRFISHY - January 19, 2021, 7:52 am

VirtualBand tried to push me a 2 times towards posting a review on his thread. He was very responsive UNTIL I placed the actual feedback.

For some reason my adwords account was banned after 2 days.

I tried to contact VirtualBand a few times, but he kept ignoring me.

After 3 days of messaging him he replied me: I checked your account it was disabled because of the type of campaign you ran

I just wasted 50\$ on this and VirtualBand is not responding to my messages.

No replacement is given. I spend 15\$ of the budget, and got banned from the adsense.

Call Me Ido - January 19, 2021, 8:32 pm

Placed an order/paid 36 hours ago - please read our contract when you get the chance.

Had to open a dispute with the user on this, irresponsible after payment was made. 1+ week of waiting, avoid like the plague.
