Thread: [\\$10k AWS credits, IBM credits and more perks](#)

Bear - December 28, 2020, 5:44 pm

I figured out a way to get upto \$10,000 AWS credits, IBM cloud credits, Google cloud credits, many more perks (total savings from all credits and all would be over 850k+) that can help if you have a new business or are a starting/medium software dev. This is mandatory, you must have a business, project or something useful to use these towards, which you'll be asked about prior to receiving all these (just so you don't abuse these for crypto mining etc)

There's an investment needed and that investment is included within the price mentioned above. Have to be able to make BTC and card payments.

Hit me up if you are interested.

Discord: Bear#1586

Will do this deal with only an on-site contract.

His method didnt have no bullshit or some social engineering technique , It is really risk free method and involves no BH

The price for the method is actually worth as he need to spend almost all amount to get the cloud credits

1. \$10,000 AWS credits
2. IBM cloud credits
3. Google cloud credits
4. Digital Ocean cloud credits

Many much more for the most of the cloud valid for years with lot of supports
Even not only cloud services there are other services which we could use that for various things

His support is really good and he is really responsive for every questions we ask and resolve them within the minutes itself

But it is for limited time, we need to grab a copy as soon as possible

lulzcat - December 28, 2020, 7:24 pm

Looks interesting dude. My old workplace could benefit from this. I'll take the vouch copy and leave a review if you want?

This looks interesting. How much will it cost me ?

bidnow24 - January 4, 2021, 7:14 am

Why not just get it from here <https://www.f6s.com/> ?

Coz f6s requires you to jump through many hoops to get those perks and here I'm offering you a way to not jump through that many hoops where you have to actually be a startup in incubation.

Accept my request please in discord or write me a PM please.

fivenook - February 6, 2021, 4:24 am

Hi ready to buy very need! I work in aws accs and credits many years, thx!

Bear - February 6, 2021, 6:03 am

This is not a method to get aws for free or cheap to host your shady work.

This is a method to get ALL the perks and more for the price I mentioned, for a project of yours, it can be anything as long as it's legal. If you don't have one to show for this, you won't be able to purchase sorry. Don't have to share any info with me, you'll need a project when you apply for the method, that's why.

fivenook - February 8, 2021, 9:09 am

I have few big project for aws and already buy more aws accs - you have telegram?

Stanley - February 19, 2021, 9:13 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

sonofgod - February 20, 2021, 7:01 am

Hey,
I'm interested, please tell me how much initial investment is needed and how long it usually takes?
And if the method is still working?

Bear - February 21, 2021, 7:43 am

Can use this method to gain almost unlimited perks for your project. Price is high, but the benefits you gain are truly unlimited. Not just by my claim, don't believe it? Message me to find out more!

Bear - March 3, 2021, 5:33 am

If you're active in the product development field, you know how valuable this offer is. Come get about \$1 million worth of perks from this offer!

Message me if you have further queries

Eth, i have a family member wants to setup either a social media / agency or a small managed services IT company to setup their infrastructure first . Would this be relevant from your direct experience ?

Hi Bear, I need some AWS for my personal business. How much are you charging for the method? I must have missed it. Let me know if it's still available. Thanks....

Bear - December 30, 2021, 4:53 am

Still selling this. Let me know if you are interested.

NSA - December 30, 2021, 6:04 am

Is there any difference between this other one being sold?

Its not just Build with up to \$120,000 in cloud credits on IBM's open and secure hybrid cloud <https://developer.ibm.com/startups/> or applying on aws for startups that gives you 10k credit for 2 years right?

For the google cloud one, does it give you like k's of credit or is it the \$350 credit when you sign up?

GLWS!

From what I read, he is just selling the info that this can be done with AWS activate. What I am selling is an actual way to bypass the need to have a VC or accelerator to be over your entity to get the credits.

There's a cool trick with service of some sort that lets you do this.

Aws doesn't just hand just any startup or entity \$10k credits lol. You have to be under an accelerator or VC to be able to get access to this.

I get you that access.
