Thread: [\[\\$10\] Gift Card Method that Made me \\$2,000 in a Week \[North America / EU\]](#)

Dutch Fortune - December 29, 2020, 3:58 pm

[WORKING AS OF FEBRUARY 2021]

Vouch Copies are all given out

This is a method that I use to get heavily discounted gift cards and flip them. It is still unsaturated. I made over \$2,000 in a week doing this, but ruined it temporarily by abusing it. The only way to kill it is by abusing it too much and being too greedy. It is very easy to do, and the setup takes about 30 minutes. You will see results on the first day of using the method.

Investment is required as you are buying the gift cards, but heavily discounted. This works for North America and European users. It is fully legal and ethical. I will show you how to do it sustainably without getting blocked.

Incorrect. You are not abusing anything. Look at the BTC and USD value of the payouts, this was successfully done recently. =)

OP provided me with vouch copy. Ebook is 3 pages long and gives the steps you need to do to execute the method. I have dealt with reselling gift cards in the past, but not to the site that OP specifies in ebook. There is some risk, but the OP has a discord group where they give you tips on being safe. I find that the price that is charged for this book is reasonable for the info and the fact that you get access to the Discord Group. It is possible to make money with this if you follow the method and advice given in the discord group. Can you make 2k a week? Probably not, but it is possible to make side income that can complement current income or be used to invest in other things.

There are sites that will purchase the card off you in exchange for BTC. I've used ipayyou and their rates were fair and you don't need to deal with p2p shit like paxful.

I've bought the method. Honestly the method is super annoying to do as you're relying on someone else and its lowkey luck based BUT once you do get the method to hit it can be worth your time and money. 2k a week all depends how much money and time you'd like to spend on this. I see this being used as a little side hustle to make some extra money if you aren't doing anything. For the price I recommended it because its super fair for what you'll be doing and you can make the \$10-15 in your first successful run. Vouch for method and fair price :)

Jpavs93 - January 4, 2021, 11:25 am

Late to post my review after purchasing last week but here it is.

First and foremost, the method does work, however I'd say it's extremely risky in terms of going against a site's policy to make money. It's not illegal, just against the site's policy. If you don't have

the luxury of having a lot of capital to invest initially, you probably won't make much using this method; I invested \$750 and profited around \$130. It's simple work, but can and should only be done a couple of times to reduce the risk of losing money.

All in all, if you have a minimum of \$100 to invest, I'd say try this method 2 or 3 times and you'll make back probably 4-5x the cost of this method.

Just want to thank OP for providing me with a vouch copy. This vouch copy was provided to me last week but I took a bit of time to actually try out the method rather than just reading through the ebook like most vouches do.

The ebook itself is short but very straightforward to understand. I think the time added up took me 30 minutes to actually do it (not including waiting time for buying and selling). I put in \$100 (which seemed to be the minimum when I tried it) and got around a profit margin of 30% (although this can vary). It is scalable to an extent but it does carry a bit of risk as the seller outlines in the ebook.

Overall its very simple, but does require some capital on hand to invest. I was afraid to try with larger amounts but the seller warrants that its possible, just don't get too greedy. Given that the method with support is \$20, with the \$100 I was able to make it back in one transaction. Once you get more comfortable it will definitely be faster than 30 ish minutes to do one turn. The \$20 does also come with support which I found to be quite helpful, as they were quite fast in answering any questions I have.

You could definitely make a few hundred quick bucks in a week using this method if you commit a bit of time and have the initial capital to invest. I have not personally tried to scale it to \$2000/week so I cannot vouch for that claim, but it is very easy to make your money back and more with this.

I can show payment that I received in my wallet today but I'm just too lazy to screenshot on my phone, upload here, and paste the link. If anyone wants some more details feel free to DM me.

There is a slight risk, however I go in-depth in the ebook about how to avoid issues. I'd say once you get the hang of it you can easily do over \$1k a week, potentially more. You can do it as many times as you'd like, you just need new accounts.

Looks interesting, but if this method is "risky" and won't work due to major abuse, wouldn't it get completely saturated eventually due to unlimited buyers or something?

Edit: and to also add, \$15 for mentorship and everything and you can make 2k a week? I wouldn't even sell it or atleast make thr price higher if it's legit. Idk just my thoughts, but GLWS OP!

I have a support team that assists with that, so it's no skin off my back. Additionally it's very difficult to saturate this. It will be a long time before it's saturated.

Sakhill - January 11, 2021, 10:57 am

Few days ago I bought this method and today I was use it for very first time.

So long story short, thing is legal, you got agc cheap and flip them and get 10-20% (when you cover all fees I think so that this is profit margin).

So let's say on 100\$ you'll earn 10-20\$ per transaction.

There is no hard work and will take you few min to do it (on daily basis) and you can scale it up. In same time that can be risky as you can get stolen agc and then you'll lose your money and amazon account, so you have to be extremely careful of who you buying agc, anyway all these is explained in ebook, also you get paid in btc so if price of btc go rapidly down you will lose some money, so it's really up to you.

At the end I can say that is worth this money as personally I didn't know about one thing which will be useful for my other projects.

My vouch !

Just to be clear to others, you can make much more than \$10 - \$20 per transaction if you use more initial capital. This user is just outlining a common profit margin on your investment.

Hey! profit margin depends on a lot of factors, such as the volume of the card, who you do business with, etc. After everything is accounted for, you can prob look to make about 20% returns on your investments.

Hope this helps!

Please reread the post, he asked about a specific timeframe, not an individual transaction.

BTC prices would need to fluctuate dramatically in a way rarely ever seen in order to really interrupt the profitability of this.

It's not very high risk.

(Feb 2, 2021 08:53 PM)xatt Wrote: [\[CITE\]](#) this has nothing to do with localbitcoins or those sites where you look for sellers that offer it at 75% ish and then you flip it for a better %?

It doesn't involved localbitcoins, but yes the basic idea is to flip GC for profit, usually you get like 15-20% ROI per giftcard.

Hi, my apologies, I didn't see your post. As written previously in the thread you do need an Amazon account.

You can certainly make \$500 in the first week with \$500 starting investment.

Where did you gather that from? I never said that refunding is involved. It's not. Please read the OP and the vouches from other members.

It is written on the OP that this is an entirely whitehat and legal method. Refunding is not whitehat nor legal. Why would refunding be involved here? I don't even think that is allowed on HF.

Let me be clear, this a perfectly ethical method and it involves no shady business such as refunding or fraud.

Hi,

how much is minimum investment for start? Can we start with purchasing small value og AGC? Also i have tried this methods before and problem is that almost every seller is looking to purchase more then 1 AGC daily. Will you give some info where we can get AGC with discount price?

Thanks

You can start with a small amount yes, though I suggest no less than \$50.

That should not be an issue. If you are unable to do the method over time because of that I will just provide a refund.

As the contract states, add my Discord and I will send you an invite and provide your role.

EDIT: Sorry, just realized that I didn't include that in the contract! For all future buyers reading this, after purchasing the gold package please add me on Discord so that I can grant your access to the private group and my support team.

(Jan 11, 2021 11:57 AM)Sakhill Wrote: [\[CITE\]](#) Few days ago I bought this method and today I was use it for very first time.

So long story short, thing is legal, you got agc cheap and flip them and get 10-20% (when you cover all fees I think so that this is profit margin).

So let's say on 100\$ you'll earn 10-20\$ per transaction.

There is no hard work and will take you few min to do it (on daily basis) and you can scale it up. In same time that can be risky as you can get stolen agc and then you'll lose your money and amazon account, so you have to be extremely careful of who you buying agc, anyway all these is explained in ebook, also you get paid in btc so if price of btc go rapidly down you will lose some money, so it's really up to you.

At the end I can say that is worth this money as personally I didn't know about one thing which will be useful for my other projects.

My vouch !

this sounds exactly like Paxful AGC flipping

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
