Thread: [ALL content of ANY OnlyFans Model |\\$3| Cashapp | Venmo | Crypto | PAYPAL](#)

Autophobia - January 2, 2021, 10:11 pm

Title really covers it all, This service gives you access to download ALL the content posted on a onlyfans models page for \$3.00.

The more content a model has the longer it takes to fulfill this service (24-48 hours) depending on demand

Cashapp | Venmo | Crypto | PAYPAL accepted

Looks like a lot of people are doing this recently huh. There's like 3 or 4 threads here some cost \$2 , some cost \$4 and the sort.

Yeah there's a couple services so far I've seen one other but granted I haven't exactly been looking for them. Either way much cheaper then full price and more discreet payment options (:

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

All those sellers have shitty internet and need 1-2 days to provide pictures and videos Imfao whatsup with that?

Yeahyeah lots of content blahblah, i download 10gb per minute or so for only 40 bucks a month and you guys call 20+ gb lots of content already lol.

So i assume these services are run by carding nigerians?

I only state 1-2 day turn arounds because in order to preform the method I have to manually use the exploit to gain access to the content then use a extension to download all the content and re upload it. My internet is fine but with this being a very small side hustle and how much of a demand there is I have to consider how much time I have to do this and how many people who are wanting it.

So if I have nothing to do with my time I can easily do 1-2 hour turnaround start to finish. But if I have stuff to do and 4 other customers ahead I like to play it safe and run a 1-2 day turnaround.

Also no I'm not using a Nigerian carding service Lmao ? currently looking into a way to turn this exploit into a automated system like a member done here in the past so there would be no wait time on my end.

I'm currently working with a developer to have this whole process automated as we speak if something falls through I'll contact you.

on my end.

I can maybe make a service for it if you can give me a few more details. A way could be to just scrape all the content links and give them to a user to download themselves. I'm sure they store everything on a CDN with static links.

Currently got a developer working on a automated system. I'll contact everyone who has offered if this doesnt work but so far we are on the right track of getting it automated

Kinda early to have it automated don't you think? How long do you think this will get patched? Or it never will? Since you mentioned in some post above its an exploit.

dreexy99 - January 8, 2021, 3:29 am

Hey mate - can you please contact me about this? I am interested. Thank you

Considering to do it manually it's a pain in the butt and how many people dm me a day asking for it the bot will pay for itself the same week I have it finished. To be completely honest there's no way I can run this service manually it's to annoying.

(Jan 8, 2021 04:04 PM)GenericPlayer17 Wrote: [\[CITE\]](#) It's carding, not an exploit. They used cracked accounts and use their cards or funds to buy the models content, and use a browser addon to download it all.

I mean that's pretty much my first guess when I see threads like this. I am sure onlyfans account cracking has been around for some time in those discord servers where ppl crack streamrate or whatever porno accounts.

Just kinda spark my curious on this exploit since there's like 3 or 4 similar threads with different sellers.

It might just be a database dump they downloaded from the onlyfans DB leak 5 or 6 months ago and do a lookup like how you do DB lookups but meh pretty bad guess I think.

Yeah it's not a dump, I've seen how it all works. Some people also use prepaid cards and chargeback as well. But Most sellers are using cracked accounts.

I've already reached out to staff about confirming what I'm doing is exactly what I say I'm doing and requested once confirmed all these comments about carding gets removed. There has been another member on this forums who was doing nearly the exact same method as me to my understanding and completely automated it via discord bot until his method got patched. Unsure how you'd even manage a fully automated carding system but either way that is not what I'm doing at this point I'm simply waiting for vitani to confirm the legitimacy of what I'm doing as well as confirm the automated system the developer I have paid to create is building the system off the same method. No need for the sales trashing. Especially considering I'm not even running sales at this second until my automated system is fishies due to how much of a hassle it is to preform this manually.

Not sales trashing at all, I've bought lots of content from vendors like yourself, just stating the facts.

Definitely wouldn't of contacted staff myself to review my service and my devs work to automate it if what you said was facts but ok. At this point just waiting on staff.
