Dreamers Weekly Member Upgrade Contest

The Dreamers group will be posting a new contest every week! The contest will be for 1 member upgrade. If the winner is a non upgraded user, he will be upgraded to a Lifetime L33T member. If the winner is already a L33T member he will be upgraded to an UB3R member for a year.

How do I win:

To enter, all you must do is comment on this thread detailing why you believe you deserve to win. We will choose a winner each week based on the entry posts we receive.

Your post may be about any topic, but must contain substance. You may also link important threads or posts that you think we should be aware of.

We will pick the member we think most deserves the upgrade. This valuable member of the community will be upgraded, and we hope to see them stick around.

Notes:

Please be mindful of the site requirements to be upgraded to both Ub3r and l33t!

Please only post your application one time! You may reply to other's applications.

You didn't win? Don't worry about it! Just wait for next week's contest and try again. Maybe you'll have new things to show or tell us!

Past Winners:

2. [MiSHo](#)
3. [Fellow Man](#)

Hello everyone. I am completing my 2 months on this forum by 7th January. I believe I follow all rules of this forum so I deserve to be upgraded to Uber.

Thanks for hosting this [Zero](#)

Proxied - January 3, 2021, 3:20 pm

Hey,

Thank you for hosting this contest. My name is Proxied and I am new to this forum in hopes to advertise my service, so having an upgraded account would help me so much as things are really tight at this point trying to startup my project.

<https://hackforums.net/showthread.php?tid=6128508>

I also provide my free proxies to the community every 24 hours.

At this point of time, my service is currently within beta testing so you're more than welcome to try it out if you like. And thank you again for providing this contest.

I am surprised so few entries to this contest. It is probably better than others when you think about it.

I am entering because I am active on HF and would like ub3r for mostly being able to sell on the premium section but also lotteries & extra features etc.

Got rid of all my crypto 6 weeks ago so have no way to get without a big hassle : (

Thanks for the contest & more people should enter!

Thanks for such a amazing contest. appreciate it.

I enjoy being in this forum, reading threads and hangout in lounge and contribute to make this forum more better.

I am here to provide my service to this community .

Why I want to join begins with.. Well as I will be getting Vendor soon; I am striving to be a part of any Official Groups here on HF. [Yes I have already applied and been accepted, just need to pay]

Ultimately, wanting to bury myself within HF as far as I can with what I'd like to eventually offer below.

I currently have my panel launching on here recently. With recent praise for the quality of the services I have for offer.

There are several things I'd like to do as well; like writing guides others may charge for for different niches. Having spent over 6 years working in advertising, and being a backend web developer +freelance (ghost) writer occasionally.

I'd like to share such massive and comprehensive guides so people can have alternate avenues of thought on how to grow their business based on multiple perspective insights.

I can continue, there is a lot I can release for free or cheap to those in the marketplace and selectively elsewhere. In this sense I am referring to automation software / scripting. I Currently run a Twitter, Insta, Steam, Discord Bots + more for personal use mostly. (I don't see hard in making public)

Current Panel Thread : <https://hackforums.net/showthread.php?tid=6125920>

Current Running Contest : <https://hackforums.net/showthread.php?tid=6131477>

TL;DR - More and more contributions to the forums or members I am planning to release; and want to be in a group already known for quality to offer some more of that.

I appreciate the detailed application but this is a contest to win free HF user upgrade (L33T\UB3R).

I would still pass it on to someone else. Just wanted to get a thorough entry in to possibly help me get that to a diff winner with less time to apply.

NODOX - January 7, 2021, 1:14 pm

I want Uber because I have a baby.

Thoth - January 8, 2021, 6:23 am

The reason I feel that I deserve an upgrade from L33t to Ub3r is because I have been an member of HF since I was 17 years old (And I am now 24, almost 25). I made a new account due to the year and a half I was inactive due to my final year of college going for my Bachelors agree. I felt that with it being over a year since I'd been active, it was only fair to restart. Since restarting, I have been active everyday on the forums, participating in contests, member conversations/topic posts, getting deeply involved in the HackForums games, and overall have truly attempted to become part of the community. By becoming an Ub3r user, I feel that I not only will have truly full access to all of the features HackForums has to offer. But also that I will be able to be given access to a pool of intelligent individuals who have experience and share the same interests I do, IT and IT subsections. Lastly, if given the chance to be an Ub3r, I would not let my upgrade go to waste. I would continue being active everyday, and fully make use of my Ub3r status. Thank you for your time, and I wish you all the best of luck! (Side note: I have checked, and meet all requirements for Ub3r upgrade.)

Guap - January 8, 2021, 11:48 pm

I just want UB3R features, would be nice to have. Not going to give you any stories of sob sorts.

If I win I win, If I lose I lose. Always good to take a chance.

This will probably be the last weekly giveaway since Dreamers is changing ownership. Unless the new owner decides to carry on with the positivity.

It was an awesome initiative from Zero and the rest of the Dreamers. ?

Yes. I am sad to see this end much more sooner than I expect.

I hope I'll be able to do something like this again whether it's personal or with a support of a group.
[Kill Joy](#) If you ever consider continuing this let me know. I will support. Currently can continue this by myself.

Thanks everyone who helped.

I have done my financial share with the forum for years. I'll be contributing in other ways.

[Thoth](#) Congratulations!

You'll be upgraded asap once my BTC purchase confirms.
