Thread: [Crypte exe under linux \(parrot os\) ?](#)

BinaryFox - January 4, 2021, 8:38 am

Hello,

I have a question undoubtedly stupid for certain I see EXE crypters under windows, are there any encryption under linux?

But isnt parrot some strange version of ubuntu? that means his options are wayy more limited than custom debian or kali builds?

You would have the name of an exe encryptor under linux?

@dill0511 :Parrot is a debian version .
