Thread: [Purchasing all development projects and web projects.](#)

Stock Broker - January 4, 2021, 8:27 pm

Please provide me with all the basic information regarding to the project in which you wish to sell in this thread and I will respond if necessary . I am seeking some projects in which are no longer deemed important to continue develop to the primary holder. I Am only interested in projects which can still prove to be valuable with a new development team in place and management etc.
