I'd star out some of these exact stats bro.

Maybe I'm just a paranoid guy, but that's just my opinion.

Jedi Tools™ - January 5, 2021, 9:26 am

I am interested. How much are you looking for it?

backz - January 5, 2021, 2:36 pm

Current BIN/range you're after?

Fellow Man - January 5, 2021, 2:55 pm

Please let us know what the BIN is and please DM me a name so I can check out the account...
very interested

It's not paranoia if you're right.

USD\$1,500,000. I can get you a lower priced one to fit your budget but it's followers count will be less. Ok ?

You are not getting a fraction of that amount from this site.

You won't even get something close to this amount ? Last guy bid \$800, I will double the amount \$2k ;)

If you can add some more exact details it would be appreciated.

Lol, the user is on drugs asking for a price that high.

OP is asking for \$1 for every 2 followers he has on that account. Anyways, good luck with sales.

Smart coming to HF for a \$1.5 million dollar transaction. We've all read the \$1k a day ebooks and are all rich af. Personally, I just spent a million on a TikTok account, so I want to figure that out before getting any other account. GLWS.

Holy fuck you made me laugh. I doubt that you have done even the slightest market research. Is the account even yours? Imfao

Let alone stand the fact that you are trying to sell this account on a "hacker" forum.

I would recommend no one to deal with this user. What a fucking waste of time.

No. He is asking for \$1.5 million. He clarified.

I think you might've added a few too many zero's onto that number there.

NERO - January 16, 2021, 2:08 pm

I think personally the chances of me going outside getting hit by lightning then being blown back to life by an A rate model is much higher than you actually getting 1.5m from anyone on this site for that account. Good luck on your 2-3k account.

Also the fact you can dump followers according to the price suggests lots of your followers are botted and can like/follow on command meaning your figures on interactions would be grossly incorrect and inconsistent.

Basically this, this, and a little more of this.

I would also like to know the username of the account.
