Thread: [Has the Coronavirus been a good thing or bad thing for you?](#)

Personally, staying at home and not having to go to places as much is much better for me since I just get to sit at home all day and work from my computer.

Bullup - January 5, 2021, 3:42 pm

For work stuff yes. I like it way more to work from home then sitting at my desk at work the whole day.

But i really dislike not seeing people that much anymore or hanging out with more friends.

Fellow Man - January 5, 2021, 5:31 pm

I think it's been a great thing only because I've gotten to stay home and spend more time with my family more than I ever have been able too.

Lyrlei - January 5, 2021, 5:40 pm

It's been a good thing personal wise, but it really did fuck our business up, haha.

shakur123 - January 5, 2021, 6:09 pm

I just love working from home, but i just hate that i cant travel, see my family or friends and i really hate the freaking masks they fucking hurt my ears!!

A + - January 5, 2021, 6:10 pm

I would have rather been more social but it doesn't bother me. Gotta roll with the punches.

Yes and no...

Good:

Have gotten 2 promotions over the last 8 months

Moved into a bigger home

Bought a new car

Investments are killing it

Bad:

Friends that I used to see at least every other day I'm lucky to see once a month

Ended my relationship

Feel isolated

Being home all the time opened up remote medical care for me. Which honestly makes therapy and psych visits so easy and convenient.

In a sorry not sorry way, it's allowed me to finally get care.

Terrible in the sense that I lost a scholarship but really good in the sense that I've improved and learned a lot during quarantine.

Haaks - January 6, 2021, 4:18 pm

I like the free days but it sucks that i cant go to a bar or big partys etc

jecoylecoy - January 6, 2021, 4:34 pm

Covid 19 is not good but we can find a brighter side from it.

In terms of business it's been great but it's had a negative impact on my well-being overall

I've lost 3 family members due to Covid. Granted i wasnt very close to them. But it seems to be running rampant

That's so sad. I'm sorry for your loss. Even though you weren't close it's still hard.

It was Ok, it was a Lil bit of both.

Purchased a new phone: Asus Rog 3

Purchased a new house, got it renovated.

Purchased a Scooter: Tvs Ntorq Super Squad edition Black Panther Spoiler [\(Click to View\)](#)

Got enough time with the family and spent some amazing time with them!

But ya no work got me bored. it got frustrating following the same routine daily.

Couldn't meet friends for such a long time got more annoying.

Sitting confined within the four walls itself with no outings was the worst part about it.

Good that India has developed a vaccine and would be providing it to the masses.

I hope it works and we start the new year full-fledged.

Honestly I'll complain how much about how covid ruined my plans, but at the same time created this necessary time for us to reflect on why we go on with our everyday lives pre-pandemic.

It has been a bad thing for me as it screwed the job market.

The pandemic has enabled me to refocus. Now I know better.
