Thread: [2nd page of Crews list isn't displaying Crews](#)

flavoral - January 6, 2021, 1:47 pm

If you try to go to the 2nd page of the crews list, it doesn't show any of the crews that are meant to be there.

<https://hackforums.net/gamecp.php?action=crew&page=2#lgv>

EDIT:

[Dragosthethird](#) caught it.

When you click on "Page 2" It redirects you to Code

<https://hackforums.net/gamecp.php?action=crew&page=2#lgv>

But it should be redirected to

Code <https://hackforums.net/gamecp.php?action=crewlist&page=2#lgv>

Very true indeed, I can not see the 2nd page of Crews as well.

Looks like an error with the link. If you want to view the 2nd page

<https://hackforums.net/gamecp.php?action=crewlist&page=2#lgv>

However clicking the next page button takes you to

<https://hackforums.net/gamecp.php?action=crew&page=2#lgv>

Isn't crews released for a very long while now?

This is the first time someone cared to check the 2nd crews page?

Nope, it was like that for a few months at least.
