Thread: [what sat / b means](#)

CyberAlex - January 8, 2021, 5:33 pm

hello

I am using atomic wallet what sat / b means?

if I choose 1 sat / b how much time it would be till the receiver gets the money?

CyberAlex - January 8, 2021, 5:41 pm

thanks for answer, how much I should do if I want to send it with 24 hours?

CyberAlex - January 9, 2021, 12:00 am

ok ive got it, how I can determine the speed of an sat?

Depends what kind of wallet you are using? Most wallets allow you to change the fee/sat.

sat/b means satoshi/byte .

satoshi is the smallet unit of bitcoin. you can use sat/byte to btc/usd converter to see the value.

Minimum possible transaction fee is 1sat/byte it will take from 24 hour to 48hour or a couple days to confirm, but sometimes when fees are low, it will be confirmed in 5-10 min.

Generally you should put 40 sat/byte, noadays fees are high, to get confirmed under 1 hour you need to put 118sat/byte
