OP is probably selling carded / hacked servers, servers go down after less than one hour.

oenkaboenkaboenka - February 15, 2021, 2:08 am

You cannot trust him and he wastes your time by making up excuses.

He is selling Scaleway.com dedicated servers and Azure VPS'es, either using carding or by hacking accounts. This means your server will only be online for a few hours until the owner finds out.

He also has a thread selling Apple M1 servers, these are also "bought" at Scaleway.com.

I have tried to accept his lies for quite a while, but finally he started ignoring me.

Fiend - February 15, 2021, 4:19 pm

All new plans are stated and site will be up tomorrow along with server panel to control your server please stay tuned and do check back :)

When you buy Vps from this vendor and install Botnet, your files can be deleted at any time.

I purchased a vps for botnet.

1 week after installing my botnet, the vendor moved the server and all my data was deleted!

Then these conversations passed between us

Fiend

We moved provider to stabilize the whole infrastructure

Me

So my botnet in it has been deleted?

Fiend

illegal softwares, scripts .etc aren't my priority stabilizing my network is sorry and that's what i did.

Me

You should think of this as your customers' files and not as illegal software! My 1-week effort went to waste

Fiend

If you didn't tell me what it was i would of looked at it in a greatful manner but i can't turn head and take blame for not backing up a botnet.

Me

(We Ignore All Abuse Cases your servers won't be censored)

Yes, it will not be censored. But it can be deleted :)

Dude, you are giving really interesting answers. Would you like to look at the title of the Vps topic you are selling?

A server whose data is deleted the next day and someone claiming to be normal. Even if you apologized to me, I could understand that. But by talking like that, you showed how fickle you are. But it was a good experience for me. Thanks!

Finish

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
