Thread: [Resident Evil or Silent Hill ???](#)

Welcome?

I know that this question can cause a lot of controversy, so I'm sorry, I didn't want to start wars?
I am not able to answer this question unequivocally because I am very torn between the two series.
I love RE for its unique atmosphere and plot, and SH for its extraordinary atmosphere and unconventional solutions worthy of Stephen King??

What do you think???

Depends tbh.

Not all the Silent Hill games are fun like Resident Evil. But Resident Evil does have a lot of shit games too.

For horror aspects I'd say Silent Hill. But if you want a good zombie action game then Resident Evil it is. I dislike Res 6. But Res 4 & 5 are my favorites. The remake of 2/3 is amazing though.

What I want is PT (if you know of it.) but it won't ever get released sadly. :/

I also regret about P.T, I'm sure it would be a great horror movie, especially with Norman Reedus in the lead role??

Silent Hill was fun, but I've always really enjoyed the Resident Evil series.

Even with the remakes, I still load up the originals and play through them.

Resident Evil series for sure, though SH was great on ps1

I had the same, I spent more time on RE, however, Silent Hill has a unique atmosphere that has not been possible to recreate any other game of this type.

I haven't had a chance to play SH ps1 myself (I used to emulate a PC).

I think Res 4 is probably the best zombie single player game ever made for sure. I might be biased though.. I remember as a kid when that game came out playing it with some friends late at night scaring the shit out of us. Makes me feel old af thinking about that

I also?

And you are right RE 4 is one of the best parts that have been released (although I am very fond of RE 6, hated by everyone for the amazing campaign of Leon??).

Both are godly franchises.... But! I'd say SH has way more "soul" put into it...

Yes, and at the same time it has tension and a unique atmosphere of terror. And also a brilliant soundtrack??

SH definitely has better music than RE tho... SH basically introduced me to the trip-hop genre

After all, Akira Yamaoka himself was responsible for the soundtrack. He always made outstanding music which is clearly visible in all parts of SH.
