Thread: [Every Snapchat chat from the past 2 months has suddenly gone](#)

?KilluaZoldyck? - January 12, 2021, 5:20 pm

I logged in today and lots of chats have disappeared with the most recent ones being from 2 months ago. Is this a bug? Never had this happen before.

But you have to keep in mind I use an old version of Snapchat + I'm basically constantly reloading backups so that might be why in my case.

I mainly used in my Samsung Galaxy but also tried on iPhone and still same results.

Doesn't seem to be getting better. Starting to hate Snapchat.
