Thread: [What should i charge for Apex Legends Boosting \(xbox-NA\) \(49 kill clip in thread\)](#)

Unforgotten - January 13, 2021, 10:26 am

i have a method of getting to PRED pretty fast like 2 days no matter what rank you are, what would people be willing to pay and is this service allowed on HF? (this method is for xbox)

i would be selling boosting service not the method.

I know people who'd buy accounts but tbh most people who boost to that stage won't even last very long lol.

But I guess for the credits

Is it the lower rank lobbies bug? from what I know you can get banned from doing that.

no its not im playing normal matchmaking not manipulating the lobby to match me with lower levels i have 13k rp and i've received 10krp in 2 days from my method still not banned and im top pred 100 with 13k rp.

the 10k rp was collected several months ago, not recent.

Google boosting sites that offer Apex boosting. If you're good they'll get you on and you'll make way more through them than on this site.

Any site will do. Apply to multiple. Good luck.

i cant do that as my method may or may not be white-hat and that kind of communities would frown upon it. wink wink
