Thread: [\[INVITE ONLY\] Bee - New - iOS/Android - Crypto/Mining Network - Great Mining Rates Now](#)

Brock Obama - January 13, 2021, 5:29 pm

I am part of a new crypto/mining network, that is brand new. It's invite only. I'll have 30+ Bee by tomorrow, I only started yesterday.

Currently the rate of Bee of mining is 0.4 Bee/h, as one million members have joined. This will continue to halve based on members of network:1-10m: 0.4 Bee/h

10-100m: 0.2 Bee/h

100m-1b: 0.1 Bee/h

1b+: 0 Bee/h

Upon reaching a billion users, there will be no more Bee produced. So if you join up now, and you'll have get higher share of Bee. It may flop totally, but if it has any value on the future - a lot of money could be made here. One weeks of mining (0.4 Bee/h): 67.2

Two weeks of mining (0.4 Bee/h): 134.4

Four weeks of mining (0.4 Bee/h): 268.8

Once Bee joins the crypto exchange, Bee and other crypto experts expect it to be worth \$1 minimum. This would provide a nice profit. If the value per Bee reached \$5-100 dollars in the future - the returns would be huge. In my view, it's worth taking the chance, rather than passing up the opportunity. There's currently millions of members, and the app only released in December. Available on Android and iOS.

Post below and I'll send you the referral link! By using the link, you get 1 Bee for free to start you off.

Bee seems to be a clone of Pi Network, and the operators are high if they think they're getting anywhere near 1 billion users. Given that it's existed for less than 2 months, I seriously doubt they have even 1 million users as they claim. The membership based halving just serves to FOMO people in.

The membership base doesn't half, the rate of mining does.

You misunderstand, I meant the rate of "mining" based on the amount of members they claim to have.

I don't think I misunderstood, I think you just miswrote.

I've sent the invite to all those who have requested it.

Apparently, they are saying it will become tradable - and it would initially value at around \$1. Whether this happens or not, remains to be seen.

Please remember I have no great stake in this. I am by no means saying this will become even tradable , let alone worth anything - but not losing anything by seeing what happens.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
