Thread: [omelge banning my vpn, proxy , and tor. What to do?](#)

btcguri - January 16, 2021, 11:16 am

I cant go on omelge with vpn, proxy, or TOR.
But with my real ip i can.

how do i get around this? I need to be on omeble with at least a vpn.

jhon_moses - January 16, 2021, 11:41 am

Hey Btcguri, You can try OSVPN with a free trial account, Please check my HF thread for more information if you want to go through with this for your prob.

why would they not ban me if i use other vpn?

jhon_moses - January 16, 2021, 11:50 am

well, mate this is something which you need to ask with your current VPN provider like if the network is in the restricted records. I am not the right guy to answer about another VPN!!

Do let me know if you face any prob with OSVPN, I would be happy to help you.

start your vpn, then go to omelge. Record everything on screen. if you are allowed to chat on omelge, then i will pay for your vpn. I want to be sure it works before i pay

jhon_moses - January 16, 2021, 11:03 pm

You can use below given thread for a free trial & see if thithings works for you without paying anything.

i need it for my security

Killer - January 17, 2021, 9:04 am

I suggest using a VPS.

That way you don't need a vpn and you aren't working from your home IP either.

Proxied - January 18, 2021, 8:25 pm

If you need proxys

<https://proxied.network>
