Thread: [Where can I resell BitRAT?](#)

Jean3795 - January 16, 2021, 3:22 pm

I was doing some testing with the RAT and it was absolutely amazing!! but the thing is that I don't have the money at the moment. So, I found that the developer has a reseller program which it gives you a 10% per purchase with your code and I was wondering, where or in what place could I resell the RAT?

Btw, this is my voucher code for a discount if someone is able to help me out there:

Is it permitted to resell it on this forum?

Is there no problem with the developer?

I don't think you are allowed to resell licenses. Check the TOS or asl BitRat
