FAQ

1. Is delivering 30-50 contents weekly too slow of a progress?

Answer:

This is just my estimation, normally I can clear 500 designs within a month timeframe, more or less. Also depend on workload that I do... usually I will just make sure that you have enough contents with you, so for let's say if you only have about 10 contents left, I will distribute more contents for you so that you have enough supply of contents to upload for more days.

2. Which platform do you recommend us to sign up?

Answer:

Shutterstock

iStock/GettyImages

Adobe Stock

Canva Contributor

GraphicRiver (Envato)

3. How many contents should I upload daily/weekly?

Answer:

Please note that your speed of upload does not determine the success of your business, my best recommendation is just upload regularly, if you have the time you can upload daily, if not you can set a weekly goal for upload. If you're new and looking for that "first sale", feel free to upload more daily, 10-15 is good enough.

4. Why are you not using this for yourself?

Answer:

I do, I am also profiting from this. I have no problem to do both, making money myself and making you money, the only difference is that the contents that I use isn't paid for in advanced, while the contents I make for you are paid for in advanced.

5. What content or design are you creating and will they duplicate with each other?

Answer:

For this specific strategy I create signature logo/brand identity and each content is in no way duplicate from one another.

6. Will this get me into legal trouble?

Answer:

There is nothing to worry about, each and every content I create for you is ultimately yours and we don't use any type of work that require licensing, such using paid fonts... my work is handwritten and using fonts that either free to use or fonts that I develop on my own time.

7. What payment method do you accept?

Answer:

BTC

Though this looks good, but I am not sure how can this be free from any IPR claims in future.

unfortunately, due the nature of this service, there is a lot of time and effort that goes in. This is not a simple ebook. If you have any other questions, please do not hesitate to reach out.

Hi, yes, we are also selling, but your items will be 100% unique. there is no saturation possible.

"Also after purchase in which we can expect to get images?" i don't quite understand this question. Are you asking how long? we will provide the images daily for 30 days. but will take a few days to a week to start.

if you have any other questions, please let me know.

Best,
Gracioso

The reason the delivery takes some time is because everything is created custom and is 100% unique. there is no copyright issues..
