Thread: [\[WTB\] AMAZON SES 50K+ LIMIT - \\$250 per account](#)

M4STERMIND - January 17, 2021, 1:15 pm

Hi there,

I am buying AWS amazon accounts that have SES Activated (50K+ Limit).
AWS account must be old enough, i do not prefer recently created accounts.
All deals via contracts only.

I'm paying \$250 for 50,000 SES limit, if the limit is higher i will pay more (The price is always negotiable).

Terms:I need full access on accounts, no 2fa, no restrictions inside the account.

If any restriction appears, the seller must fix it and grant me access.

Health of the accounts must be good, no high bounce rate, accounts must not be suspended, accounts must be able to send e-mails.

Account must have an active billing method (not an expired one).

its not \$50k its 50k emails and this isnt blackhat or carding material.

No one warms SES accounts. either they are freshly signed up or old. warming up is a completely different process that no SES seller actually follow.

also, what price you're paying?

Now we are offering \$250 instead of \$150 for an AWS SES account with 50,000 daily sending limit.

Just to make it clear, your accounts didn't match our criteria, it's not because we weren't interested to buy them.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
