Thread: [Flooding Discord Server w Bots](#)

mikeyyy - January 18, 2021, 3:19 am

Seen multiple people do this to a couple of my servers and want to learn so that i could do it back to them LOL

Anyone down to send some tutorials my way // teach me?

ty boys

Olmost - January 19, 2021, 4:24 am

Also interested in this if anyone gives the man and answer.

It's not free so if it'll only work if you're looking to spend a lot of money and get scammed probably too.

How's it not free? what LOL i know you just need a way of generating tokens + different proxies, since when are discord accounts not free lmfao ??? + there are many ways of getting proxies for free.

You need good tokens.. Made with proper proxies and email/phone verification. But for that you also need a proper generator. And a proper raiding bot. So you'll easily spend ALOT of money. So it's better to just find a service where people already went through all that pain. You might get scammed though since alot of people that do discord servers scam.

(Jan 19, 2021 09:46 AM)Davkul Wrote: [\[CITE\]](#) Maybe cause that requires having knowledge in coding, and you're pretty much stating you have none? You'll need to pay someone to either set it up for you or teach you, why would you assume anyone would waste their time on you for free? There's actually nothing funny about this, you're pretentious asf and that attitude will keep people away from you.

LOL retard i know how to code that's not the problem, i just need someone i can bounce questions off and give me a general layout of how it works. this is why you're poor and unloved smh

You just have to grab some proxies and slog something together in python and selenium but I'm doubting you know either if that so I would say learn it and make your own

(Jan 20, 2021 01:21 PM)Davkul Wrote: [\[CITE\]](#) 'Knowing how to code doesn't mean I know my ways around discords API etc', this sentence literally doesn't make any sense, the Discord API documentation is public for everyone to see and use, you know how to code but can't code a way around their API? Imao, boo hoo, just say you don't know how to code a Discord bot headass. you're acting like you haven't spent the last hour crying because you've been struggling to define a function in python. dont fuqkiqq talk to me LOL
