Important message for those of you dealing with TOM C.

Profile link: <https://hackforums.net/member.php?action=profile&uid=3372466>

At first, i contacted him on HF, he sent his Discord and said i should contact him on Discord as per message here: <https://prnt.sc/x7zw4u>

It was a terrible lesson to me dealing with this guy, at first, i was thinking he's a genuine guy, not knowing he's a scammer.

I sent him a contract request, without checking if he accepted the contract, and he cancelled my contract request after receiving money from me for 1 month license of Flow crypter, and even gone to an extent of infecting my PC with his Crypt and also blocking me on HF, so that i wont be able to send him PM further.

You guys can go confirm from our conversation below and take extra precaution while dealing on HF.

Thanks.

MY CONVERSATION WITH TOM C:

Please be very careful with this guy, i just told my friend about this issue, and he told me that this same TOM C. has scammed him early 2020 as well.

Be very careful with that guy called "TOM C".

He was responsive until he got your money after that he didn't care about you as a customer.

Pretty bad experience to learn from. I hope next time you won't send the money before other side accept the contract :(

I forgot to check through his deal disputes, i saw him as an old member, and decided to deal with him, not knowing he could be this bad.

This one have served as a lesson to me.

Sounds like he's trying to exit scamming slowly. Sorry for your loss, OP.
