I'm interested. Do you offer any other packages? Maybe like just esp and no aimbot but no recoil?

Hello,

No, the cheat contains everything and there is no package with less feature. However, you can use whatever you want, everything is toggable, you can use only the features you want and keep the rest toggled off.

I'm a reseller approved by the cheat developers. The cheat has been UD since it's release: approx. 6 weeks ago.

NB. that we (the approved resellers) are allowed to brand the cheat as we want.

I'm interested in a 30 day special, let me know, if you can give an intro pricing, better than current 25% off :D

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
