His thread: <https://hackforums.net/showthread.php?pid=60514120#pid60514120>

He makes an ewhoring thread about gaining adds on snapchat. He goes on about how [BRAND NAME REMOVED] is a waste of time, etc.

<https://hackforums.net/member.php?action=profile&uid=4899361> makes a post on the thread about how he copied someone else's video and posted evidence too. sadfire then closes the thread because he obviously got exposed.

Deal with caution with this user, just wanted to make a quick community alert to let everyone know.
