Thread: [Automatic Thread Bumper | Bump your threads automatically 24/7 | NO FEES](#)

Semmenial - January 21, 2021, 12:29 pm

24/7 Auto-Bumper

About

This tool can be used to automatically bump your threads and keep them on top of the forum. It is PERFECT for Vendors/Sellers on this forum to help maximize sales. The Autobumper is controlled through a discord bot(which you can add to your own servers), to add/remove threads. Since it is currently in the beta phase, there are NO EXTRA FEES, you will still be paying the Stanley Bump fee. This tool is super easy to use, you can add the bot directly or add it to your own server.

How to Use it

Since it is in a beta phase, just PM me or add me on discord: sec#1041.

I'll assist you through the process.

Command List

!help

!auth -> FIRST thing you should do upon joining

!add <tid> <interval in seconds> -> add a thread to be bumped every 'x' seconds.

!remove <tid> -> remove a thread from being bumped

!account -> display information about your account

!threads - > display threads being bumped on your account.

I hope you guys enjoy it, I had to bring it back since so many people were requesting it!

Old Thread; <https://hackforums.net/showthread.php?tid=6095575>

guardian - January 21, 2021, 12:39 pm

Keeping threads on top 24/7? I mean the auto bumping is super cool, but this would probably cause

complete chaos on HF.

Zeus - January 21, 2021, 12:50 pm

Good stuff my brother glad you got it back up!

Chief - January 21, 2021, 12:52 pm

It's no different than the bumper Charger released. Won't hurt anything

guardian - January 21, 2021, 12:53 pm

(Jan 21, 2021 01:52 PM)Chief Wrote: [\[CITE\]](#) It's no different than the bumper Charger released. Won't hurt anything

Oh I see, well that's a great thing then.

Interval based bumper. I've released it before several months ago. Got permissions from [Xerotic](#) and [Omniscient](#) as well to host it through discord.

remembermebrow - January 21, 2021, 1:48 pm

Such a beautiful project...

Glad to see cool things such as this

TRENDING CHEETAH - January 21, 2021, 1:49 pm

Is this subsection based, or does it also work for the new posts page?

HERMES - January 21, 2021, 1:51 pm

Been using Sem's autobumper for about 6 months now, works flawlessly every time.

Prawnster - January 21, 2021, 1:54 pm

(Jan 21, 2021 01:39 PM)guardian Wrote: [\[CITE\]](#) Keeping threads on top 24/7? I mean the auto bumping is super cool, but this would probably cause complete chaos on HF.

Ay if someone wants to burn that many bytes to keep their thread on top then am sure omni would welcome it with open arms hahaha, removing more bytes from HF is always a good thing

Semmenial - January 21, 2021, 1:54 pm

Thanks brodie!

(Jan 21, 2021 02:49 PM)MadeinIndia Wrote: [\[CITE\]](#) Is this subsection based, or does it also work for the new posts page?

Basically, you add a thread. Then every x seconds it will bump.

(Jan 21, 2021 02:51 PM)HERMES Wrote: [\[CITE\]](#) Been using Sem's autobumper for about 6 months now, works flawlessly every time.

Thanks brodie! I'm glad you've enjoyed it!

Yes haha, just misunderstood things at first and thought everyone could bump their thread 24/7 for free, as long as this tool is in beta.

Rev - January 21, 2021, 4:31 pm

Currently using this and I must admit it's very handy

spiral - January 21, 2021, 5:03 pm

Was very easy to setup, works flawlessly.

ADA - January 21, 2021, 5:30 pm

Just started using it as well!

Works flawlessly and Semm is pretty cool guy.

P.S The bot doesn't charge ANY fees.

Artisan - January 21, 2021, 5:42 pm

Leading the charge by making it free. Even though a third person might start the same service soon, you'll always be the pioneer mate.

Semmenial - January 21, 2021, 5:44 pm

(Jan 21, 2021 06:42 PM)Artisan Wrote: [\[CITE\]](#) Leading the charge by making it free. Even though a third person might start the same service soon, you'll always be the pioneer mate.

The founding father of Auto Bumpers.

Thanks bro.

Herion - January 22, 2021, 1:11 am

Just started using Semmenial's bumper and it works like charm. Set-up is literally a matter of seconds.

A + - January 22, 2021, 6:20 am

This is sick. Do you just float the byte fees?

Semmenial - January 22, 2021, 10:28 am

(Jan 22, 2021 07:20 AM)A + Wrote: [\[CITE\]](#) This is sick. Do you just float the byte fees?

You only pay the normal Stanley bump fee.

Shone - January 23, 2021, 12:33 am

Nice, unlike bastards who greedily charge exorbitant fees to call a single API function with a parameter, you've actually went and made it into a no-fee discord bot. That's cool!

Semmenial - January 23, 2021, 1:20 pm

(Jan 23, 2021 01:33 AM)Shone Wrote: [\[CITE\]](#) Nice, unlike bastards who greedily charge exorbitant fees to call a single API function with a parameter, you've actually went and made it into a no-fee discord bot. That's cool!

?

Might start charging a fee once I'm out of the BETA phase. I wouldn't charge a fee for an incomplete product.

Grim - January 25, 2021, 9:17 pm

Very nice man might start using this need the get some threads I need it

This is very cool! thanks again Semmenial helped me setup everything super easy to use :)

CPA Exposé - January 31, 2021, 9:43 am

So, if a client had a really easy project to ask for you, you wouldn't charge them?

Easy or simple doesn't = free.

You're still providing a service that required a skill others don't have.

Shone - January 31, 2021, 9:50 am

Easy or simple doesn't = free.

You're still providing a service that required a skill others don't have.

It's a single API call, paying 25 Bytes to gain access would be alright but paying 25 per each bump? Hell no, that's a blatant rip off.

To put it in perspective - a car mechanic might charge you \$900 for a service that's worth about \$9 - they're also providing a service by having skills others don't have. It still doesn't make them any less of a rip off, though.

We can only know better and not fall for these rip-offs, then share our knowledge so others know better too.

Still 100% Free, get at me. To add the bot to your server.

Isolate - February 11, 2021, 10:35 pm

Keeping the threads at the top, let's see it go.

Proxied - February 12, 2021, 12:10 am

Hey bro, am just wondering, will this only work for upgraded members ?

Am currently using Telegram & Discord API's to post my scanned proxies from my server to my social channels, and wondering if I could do the same with the HF API ? Instead of a bump post by Stanley. That way, my web server can read my .txt file, and post it as a reply to my free proxies thread in my own formatting via my web server.

Would be neat.

Semmenial - February 12, 2021, 8:40 pm

Definitely possible. DM me about this, I can definitely help.

Iconical - February 13, 2021, 5:07 am

sending you a add on discord now

irankdotdigital - February 13, 2021, 9:01 am

Looking great! Would love it also!

TasteNZ - February 15, 2021, 1:48 am

This is a cool product!!! Used it a few times worked as clean as a whistle.

Semmenial - February 18, 2021, 7:22 am

Let me know if you guys are interested in this. Be sure to shoot me a convo or PM before adding me on discord.

Stanley - March 3, 2021, 8:54 pm

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

demo - March 7, 2021, 8:03 pm

Nice tool, I like how it's built into discord

Semmenial - March 9, 2021, 4:01 pm

Shifting over to a public project. Stay Tuned!

ghostboy - April 24, 2021, 12:27 pm

Can I please get acces to this! Would love to use it soon
