My next step is to get sales and aswell Binks partner will be helping me with that out of kindness even tho its not even in the package. A very good person to work with and will not take super long to respond to you on questions or anything you need. He will help me throughout my new service and is setting me down the right path of sucess. A huge thanks to Binks, a trusted partner you can work with. He will also get you products you didnt even think of selling that dont have competition making it easier for you to sell youre products. I will update this response with how easy I get sales using Binks service but as of now I give his whole setup a 10/10 communication a 10/10 and a honest partner that I call my brother. Website looks great and honestly looks very professional.

The second part is the mentorship he is providing since I'm rather new to dropshipping. I'll update on this thread how that goes. Overall so far, very satisfied.[\[contract=tid\]](#)Start Contract[\[/contract\]](#)

Did you post as "Bink" on another website too?

I noticed you got the same advertisement content (except prices) as this one here;

You have proof of earnings? Then I would be very interested in the Niche Store.

vlajke - February 15, 2021, 1:56 pm

I would like to get this done with you as well if you're willing to go first, with a contract, of course. I already owe a few shops and a partner account so this would be an easy job for you :)

Let me know

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

you mentioned Winning Products - High Conversion, can you show us proof that we can earn easily with the products? if they are winning products and high conversion, how can we promote to make sales? do you help with promotion to get sales?

I use different analysis strategies to see the trend and the products that are scaling atm and can be sold in the next months. I mentioned high conversation rate as I'll deliver a professional store that's ready to convert. UX Optimised that pushes the customer to buy. Also give the right audiences to target for each product so yes I'll help on the promotion. Send me a message on HF or use my contract method in my signature so we can discuss details.

Bought the niche package that costed \$192 a few weeks ago. Bink worked with me and my requests on designing the website.

Website looks great and honestly looks very professional.

The second part is the mentorship he is providing since I'm rather new to dropshipping. I'll update on this thread how that goes. Overall so far, very satisfied.

Ecomhunt is a really good tool to snipe high potential products.

The methods you bought are readable only, I don't think the seller will support you on it.

Here, with us, LIFETIME SUPPORT isn't just a title to bring customers. We create the store for you + mentoring. While we're creating the store, you will get explanation on everything we do and we'll teaching you about managing the store (orders fulfilment, products importation and editing etc) even after months of purchasing from us, you can say `Hey guys can you please fix this I missed up something` We'll be happy to support ya.
