You can't. There's no magic Onlyfans bypass.

I have reasons to believe those packs are obtained via hacking subscribed/models accounts, or they simply got leaked. I have a thread myself where I'm giving away some packs and most of them in fact consist of leaked OF content, literally 90% of the models get leaked.

You can by OnyFans with CC attached for like \$0.20. I'm pretty sure they are using those, which is basically credit card fraud.

I can concur. MOST of the time prepaids don't work but I have snuck one through on occasion. Somehow it worked for me once or twice on my laptop and not on my phone
