This is an obvious scam , do not trust this

MyBrokenFace - February 2, 2021, 5:50 am

35% with no risk it's impossible already try and this is obviously scam, they do pay but they gonna run away with the money when the global amount would worth it so take the risk to loose everything if you want. All this for micropayment every day of 4 buck taht you have to wait around 30-90day to receive.. And the gift you had to refund it before first withdraw that means that you have to put money on it.

I've been using the site ai.marketing for a while & have cashed out multiple times.

Obviously there's a risk to using the site, however if you only play with money you can miss: why not?

I deposited 500\$ and cashed out and worked fine. Still very happy with this method.

Vayrez. - April 20, 2021, 4:44 am

I would like to get more informations about this method
