php Email Spoofer

I have a php script that will allow for Spoof Email sending.

Make sure to use a webhosting service that has smtp enabled so it actually works.

Reply here and I'll send you the php script.

Wouldn't mind taking a look at the code, thanks.

rickyfeetof - January 27, 2021, 1:42 pm

Id like to test it if you dont mind

AlgisJ - January 28, 2021, 12:13 am

Yes please and thank you for sharing

WTF...??

?

acesfu11 - February 5, 2021, 3:50 pm

Interesting. I'd like to be able to play with it a bit. Thanks

Bronson - February 5, 2021, 6:26 pm

Wouldn't mind taking a look at the code, thanks.

ndaman - February 6, 2021, 7:48 am

Wouldn't mind having it. Thanks

hey, read the fucking thread. OP is closed

marediths - March 8, 2021, 6:18 pm

The Code is posted on <https://github.com/roast247/SpoofMailer.php> the hackforums staff keeps banning me for some damn reason
