Thread: [Z590 and Core i7 11th generation release date?](#)

Anatoli_Smorin - January 26, 2021, 11:32 pm

And official word for Intel about the release date of the Z590 chipset motherboards and the new 11th generation Rocket Lake-S processors?

Should I get a Core i7 11900K over a Ryzen 5800X?

No. There is no official news yet.

It's literally impossible to say without performance metrics available. The leaked specs really don't say much.

Might want to note it's an i9 11900k. It will cost more than i7 models.

Sure they are out. Also seen one of the boards on Amazon, but it was out of stock the same day.

My mistake there, I should have specified motherboards are available, CPUs are not.
