Thread: [Apple Icloud phishing page script](#)

lonleyboy2 - January 28, 2021, 10:39 am

Im looking for a Icloud phishing page with script. My old one i could directly buy from a website. But i forget the websites name.

With that i can hack into girls iclouds (yes i have a method to go around 2fa). So if anyone provides me with this page i will share my results and he can freely choose a girl im doing it on :)
