You can consider our service like PPI(pay per install) as you pay per amount of bots executed on your exe file

Just you pay for Bots executed and not Bots receveid

I personally will be interested in this and seeing its quality.
Are all the bots fresh or already ripped of everything worthwhile

I might give you a shout later and test out this service.

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
