Thread: [Tor browser with tor service](#)

jawbreaker244562154689 - January 30, 2021, 10:52 pm

Would tor browser and tor service combine increase my security compared to just only using tor alone for example if someone tries to get my real ip from the tor exit node im assuming since im using the tor service then they would get the tor service ip could someone let me know

Vagabundo Legendario - January 31, 2021, 6:13 am

What the fuck are you talking about

Did you know that Tor Browser uses "TOR"?

That's why it's called like that because both complement each other, Tor Browser uses Tor exit nodes for secure connection.

I think I got what you tried to say, by activating a Tor service apart from the one from Tor Browser, yeah it would be more secure but it still too hard to get to origin connection through Tor, even by only using Tor Browser
