Thread: [How to set a custom GIF Avatar?](#)

hosmail - February 1, 2021, 12:23 pm

I've been trynna figure out how to upload a gif as my avatar but it won't work?
Do I have to be UB3R before getting a gif avatar or is it something else?

Thanks in advance to those who reply ??

Utility - February 1, 2021, 1:15 pm

You need to have the GIF be the dimensions and size of file exactly as the text says otherwise it won't work.

jecoylecroy - February 1, 2021, 7:39 pm

There are dimensions and file size requirements :

Quote:The maximum dimensions for avatars are: 120x150 pixels.
The maximum file size for avatars is 100 KB.

Thank you!
Appreicate it ?

you have to meet the size requirements and nothing to do with the uber upgrade.

Blockonome - February 2, 2021, 6:49 am

I had problems with this as well, but yeah, the dimensions and filesize has to be within the requirements, otherwise it will not work for you.

ghostboy - February 3, 2021, 12:55 am

you have to fit the requirements for uploading a live graphic

guardian - February 12, 2021, 4:39 am

I remember when I tried to upload a gif for my first avatar and wondered why it won't work.

Hell yh bro!

I just gave up

cba about such a small thing ???

NoneStar - February 12, 2021, 1:07 pm

I think it has to be the correct file size and dimensions or it won't work for some reason, it's been years since I messed with my avatar here though.

Koyote - February 12, 2021, 1:44 pm

Ooh okay I'm gonna have to make me an interesting GIF to use at some point then!

hosmail - February 12, 2021, 9:50 pm

Any designer willing to help me is welcome to hit my PM's.

Will be paid ofc (in bytes)
