Zero - February 2, 2021, 8:14 am

Just noticed that there's now new share post with many options and also a post QL counter!
Thanks [Xerotic](#)

Ooh that's a very nice addition to the forum.

Hmm that's kick ass! I wonder if people without HF accounts will be able to read the text of threads without making an account with the new sharing feature. Would certainly increase the activity on here.
