this is a greyhat method, not illegal

My eBook will contain the following;

- What products to sell, where and how to get them.
- Where to advertise and what to say, [there are free methods and paid ones.] and honestly the free ones are better.
- sales pitches and scripts.
- written experience and opinions of products and how they sell, what common issues you could run into, and how to solve.

I lost my Job due to covid19, I know and understand it is a hard time for almost everyone, but the only person that can solve your financial freedom is you!

I personally have started up 2 businesses since the start of last spring when covid hit my hometown. This method is an easy 50K+ Euros even for noobs.

- Not Ewhoring
- Not carding
- Not scamming

Note that if you don't have contracts for these sales your account could get closed permanently for non-use of contracts. In the future, if you are going to spout BS, make sure it doesn't violate forum rules in the process.
