Thread: [\[FUD\] UAC Bypass kit | NO UAC PROMPT | WD BYPASSED](#)

kuebiko - February 2, 2021, 10:23 am

Im selling a private UAC Bypass kit with multiple methods included. These methods allow you make programs that run without showing the UAC prompt. There are also some persistence methods that will allow you to create programs that have multiple ways of running on startup, and are very hard to remove.

CRYPTO ONLY
BTC XMR ETH
15.99 15.99 15.99

If you'd like more info or would like to buy, contact me on Discord:

Stanley - February 3, 2021, 9:15 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Can we some proofs please

POLY MATH - February 24, 2021, 9:27 pm

Any proof of this working?

HackOS - *February 24, 2021, 10:00 pm*

I'd be interested if you can show me proof
