Thread: [148 Gamer \[UID=4885800\] AKA Lil Wolf the exit scammer is back again](#)

Seasons - February 3, 2021, 7:22 pm

EDIT:

Since I got a message from a member that Lil Wolf is still trying to do exchanges on this forum I will put an end to this all. This will be a lengthy read so I'll put a TL;DR at the end.

First of all, let's establish the link between 148 Gamer and his old account Lil Wolf. I'll start of by showing a vid of him sending his lilace148@icloud.com on his old Discord which he used to do exchanges with on his Lil Wolf HF account:

[Vid AceFlexin#8046 showing his iCloud](#)

Him using lilace148@icloud.com on a public contract on his old account

<https://hackforums.net/contracts.php?action=view&cid=238919>

This Discord ID(691348423378731018) matches Lil Wolf's Discord ID:

[Discord Lil Wolf HF](#)

Which also matches his Discord ID in previous scam reports like these:

<https://hackforums.net/showthread.php?tid=6097492>

<https://hackforums.net/showthread.php?tid=6093925&pid=59983288#pid59983288>

So how does this tie his old account to his current 148 Gamer account?

Well, he still uses lilace148@icloud.com to exchange, lol.

[Screenshot of Lil Wolf using the same iCloud on his new account](#)

You can find his current Discord here incase he edits his post, lol.

[Discord username 148 Gamer](#)

<https://hackforums.net/showthread.php?tid=6136374>

But this is not all lol. Let's go down this rabbit hole since Lil Wolf is so set that it's not him, lol. We already know that Lil Wolf isn't the sharpest tool in the shed. On his CURRENT account, 148 Gamer, he posted this:

[Screenshot of his post incase he deletes it.](#)

<https://hackforums.net/showthread.php?tid=6129563>

That's one of his Spotify playlists. Let's click on this Spotify playlist:

[url=

Playlist 148 Gamer[/url]

Now, click on his profile '148 Gamer':

[Spotify Profile 148 Gamer](#)

Here you can see his public playlists.

[Public Playlists 148 Gamer](#)

Doesn't this pic look similar? It's the same pic he's using on his Lil Wolf Discord, lol:

[Screenshot of his Discord Profile Picture](#)

But that's not all lol. Lo and behold... we see lilace148@icloud.com again!

[Screenshot lilace148@icloud.com on his Spotify playlist](#)

By now he should be doing damage control, deleting everything he can find. It's honestly disgusting how he keeps trying to think he can outsmart everyone. Let's visit his Instagram, which he publicly put on his Spotify playlist:

[Instagram](#)

This links to his SoundCloud:

[SoundCloud](#)

What else can we find on here? Well. He has a song with Kato:

[Aceflexin Ft Kato](#)

Why am I bringing this up? On his banned account, he posted this. lol.

<https://hackforums.net/showthread.php?tid=6106827&pid=60159154#pid60159154>

Must be a coincidence right? He made a song with Kato on his banned account too!

Let's dive a bit further. From his SoundCloud, we can go straight to his twitter since he linked it.

https://twitter.com/ace_flexin

[Twitter screenshot since he will delete it](#)

This is when the circle becomes full circle. Keep in mind, we found everything above from the posts from his CURRENT account '148 Gamer'.

https://twitter.com/ace_flexin/status/1303537881856835586

That's him talking about his armed robbery case that he did 4 years for. His name, Chester, is written in it multiple times. This also shows the police department that dealt with this case. Oh and, he shows a chase bank with 300k on it to flex on everyone. Lol.

What message did Wolf send on the 9th of September?

Who also made a post about being a convicted felon that just came out of jail from a 4 year sentence?

Take a wild guess...

Our Littlest Wolf! This is his first post on his banned Lil Wolf account:

<https://hackforums.net/showthread.php?tid=6057378&pid=59526141#pid59526141>

Our sweet Chester!

He doesn't shy away from telling you that he did an armed robbery, which he also said multiple times on discord:

[Discord screenshot](#)

He also mentions he is from New Orleans, which checks out since he has Slidell, LA put on his Twitter Bio, which is right next to New Orleans

[Twitter Bio](#)

That pretty much concludes everything, I can't imagine how stupid you have to be. You literally did a four year sentence, only to leave so much information out in the open. He's scammed well over 3k on his previous HF account. He will do the same, farm rep, currency exchange, then exit scam. Also, looking at the post history of his 148 Gamer account, he went from posting a welcome thread to commenting under scam reports. Now, what new member would go straight to the deal dispute center? Lol. It's super obvious.

TL;dr

Wolf is still using the same iCloud to exchange. He also left the iCloud on his public playlist.

My original post:

Quote: Many of ya'll probably remember Lil Wolf/Wolfpro/Aceflexin. I stumbled upon him again with pure luck when i was searching for an exchanger, he is still using the same iCloud email for his Apple Pay that he used on his banned account:

<https://hackforums.net/member.php?action=profile&uid=4627132>

He is currently doing exchanges on his main account:

<https://hackforums.net/member.php?action=profile&uid=4885800>

So what does his current hackforums account link his previous banned hackforums account. Well.... he is using the same iCloud email again (what an idiot lol), Wolf (aka Lil Wolf, aka WolfPro, aka Aceflexin). Here is him using the same iCloud email on his previous discord account AceFlexin#8046:

<https://gyazo.com/63a6ffe1fe0b8d6e0168d513d2031a75>

<https://gyazo.com/233cac02f4315e7f143acbbb57769645>

If you want proof that Lil Wolf is indeed AceFlexin#8046, well, his discord ID = 691348423378731018. A quick search on HF will bring you to this thread:

<https://hackforums.net/showthread.php?tid=6097492>

Which is about... Lil Wolf scamming, what a surprise!

the iCloud he is using right now is the same as can be seen in this screenshot:

<https://gyazo.com/b5ebca9583a37f1d82d057d7cc7aa2a2>

I am going to post a DWC thread in the marketplace discussion since this member has scammed people over. Just see for example this deal dispute:

<https://hackforums.net/showthread.php?tid=6118009>

Some other fun screenshots where he is just admitting to doing dumb shit:

<https://gyazo.com/e1e800878d463e358cdffa45c71bdd81>

He will start off doing legit deals only to exit scam like last time. Be warned :) Also, watch this thread get vouches for him. This is a tactic he uses on people opening reports about him, he messages them to earn a quick 5 bucks if they vouch for him on scam reports lol, check these screens:

<https://gyazo.com/470611852f8aaf6da0b5c16c785db65f>

That's how exit scams work. Do legit deals for a while until everyone has no doubts that you're legit and are willing to go first because you're a trusted exchanger, then dip and run off with \$2,000, and invest \$150 of the \$2,000 to make a new HF account on a new IP & buy vendor and everything and repeat.

Just cuz you've done successful deals with him doesn't mean he's not a scamming PoS.

Sounds like a lot of work for such a little payout, but I see your point.

Exit scammers are just poor kids with no actual skillset to make themselves money so it's good money for him I bet.

It's sad and \$2k is a super small payout but if he just repeats it 5 or 6 times on different accounts he'll get \$10k+

It's insanely pathetic, good catch, OP!

And was the payment method he used in the past the iCloud he used on Lil Wolf?

Edit: In this old public contract here you can see the same email on 148 Account.

"lilace148@icloud.com" = <https://hackforums.net/contracts.php?action=view&cid=238919>

+ in a different contract

"irvinguss389@gmail.com"

Looking at Lil Wolf's Public Contract's we have these emails:

"chestert96@icloud.com" = <https://hackforums.net/contracts.php?action=view&cid=238919>

"682-777-1163" = <https://hackforums.net/contracts.php?action=view&cid=223135> Lil Wolf's Public Zelle #

So far only iCloud noob usage similarities, let me continue looking through his public contracts.

This will be very hard to prove with onsite proof linkage but everyone should DWC for sure from here now.

my B is obv from my onlyfans service. He honestly got mad i wouldnt deal with him why is what is supposed to be what he's saying is blocked though? Can we acknowledge he has 3 accounts. Not only that he got mad i wouldn't deal with him. I'm a pretty transparent person someone on here doing a 1k deal via bank details using my REAL info. This just seems to good to be true honestly. But everyone is entitled to an opinion. I'll be closed if i'm really a multi well can't say that cause OP has been on 4 accs today. I'll wait on that vid OP. Your name is 148 gaming your email is lilace148@icloud.com, the 148 Gaming youtube miraculously belongs to Lil Wolf and has been uploading for months under the name 148 Gamer/Gaming, he also goes by AceFlexin/lilwolfflex.

You obviously are slower than you're letting on.

1. I said multiple times that is my applepay
2. He has the wrong cashapp
3. Look at screenshot in last post

All we have to do is wait on OP to show payment proof i showed you who he was he got mad i wouldnt deal with him after seeing his profile.

Have i ever went by that no. why not compare contracts? We should have something in common. Since it's "me" literally you just post boosting yourself cause all you have to do is wait on OP to show a video of him sending money to my cashapp which he doesnt have or the applepay which is mine you think its hard to find out my details i told you i'm transparent. i'll tell you whatever you're

Regardless of the cash app at all, there is 100% evidence that you are littlewolf as he claims LMAO, you're just hung up on a detail that is literally irrelevant at this point. What you have in common is your aliases as well as your usernames. A random youtube with your username, first upload just before your HF account creation, that is DIRECTLY tied to LilWolf? I've done to many deals on here so if that's the case the payment methods HAVE TO BE THE SAME. But I see what you're saying and like I said it's not me it WILL prove its not me cause if this is this case and he supposedly sent money to this person i should have it correct? Right if i don't and he has sent payments then that opens doors to prove its really NOT me. I'm just saying YouTube of all things and i see it as a VALID point. but if he has lied (which he has) that means nothing cause that'll prove that's not my discord and he never sent me a penny he got mad i Wouldn't deal with him and its just funny how when he showed the payments that was the only one he got. That's why i bring up why are his side messages blocked why is it cropped. Probably cause they are edited and what he said doesn't match up with what was edited on the payment details. I don't honestly care what YOU think I don't even deal with you. It's the principle like honestly that's not me. and he can easily prove through showing a payment especially looking AGAIN WAY IN DECEMBER he has no excuse he can show a payment to it then that'll prove if its 100% me or not me. lil are we serious "lil" is COMMONLY used but the ace and 148 i can more understand even though ace is heavily used as well like i said the 148 is what makes it seem like that. *prove. I'm glad it's not me. Stop riding each other meat all you literally have to do to prove is see if he's telling the truth. He said i scammed him and showed that discord so if that's the case he sent money there.... oh wait the pics fake the YT thing is more convincing than his post but all he has to do is post a vid he does that showing he paid whew... I guess I'm him and a multi. Usernames i could see if my name was more unique but you literally saying 30-45% of members here who are on post at the same time with similar names are the same people. All we have to do is wait on OP wouldn't be surprised if its him or like I SAID I CAN CONFIRM in a voice/video call that's not me he has commentary on those YT videos... that was another solution no though you. I see why you aren't a staff member. Quick to blame without all evidence provided came up with your own conclusion instead of waiting on OP to show more proof to back up your statement cause all with one video this could be settled if he's lying it's just crazy how i send him my apple pay today and that's THE ONLY payment method in that pic with other that aren't mine at all which is WILD.

You just seem childish. You have a ego. im not the only one who followed him and my name was 148 first so its him if he adopted it. I can easily prove that's not me at any point any time. you totally disregarding the possibility of OP lying and me telling the truth like i said you trying to get your e-rocks off. You must receive this as me like pleading or something i'm just stating facts. It would suck if op showed a video and couldnt prove he never sent any money but said im a multi who scammed him when really he's mad i wouldnt deal? his pic is from December i actually followed him and like a song he has down <https://gyazo.com/3a58f68532144d0bbddf0aef7753c387> same time i followed him so September before i was even a member i had this alias. SO its safe to say I never took it Ive had this name for 2+ years i dont post much and shit i do shit when i have nothing to do for some free money. As you can see I dont even use spotify like i used it 2 months later because of a ebook i bought on HERE and it had to do with at this point fuck it playlisting and selling your playlist to a site if you get so many followers likes i was bored it was after carti made WLR i figured i might be able to catch some people organically and use the method as you can see on my liked songs i haven't been on there since LOL. Like i said i can show you proof video chat voice chat all we need is @OP to post video of those even just show \$1 payment cause im this multi-scammer right sooo he would have the transaction. If he doesn't then what if his pic is proved fake then what if everything he said is a lie Then what? That means the link never is there we not mutual friends cause I never had him on discord and i know you guys probably looked when looking at that youtube. SO you can't say that i got people who will vouch this has been my name for years. Every way i can prove you reject so why not wait on OP to show some in depth proof?

You must receive this as me like pleading or something i'm just stating facts. It would suck if op showed a video and couldnt prove he never sent any money but said im a multi who scammed him when really he's mad i wouldnt deal? his pic is from December i actually followed him and like a song he has down <https://gyazo.com/3a58f68532144d0bbddf0aef7753c387> same time i followed him so September before i was even a member i had this alias. SO its safe to say I never took it Ive had this name for 2+ years i dont post much and shit i do shit when i have nothing to do for some free money. As you can see I dont even use spotify like i used it 2 months later because of a ebook i bought on HERE and it had to do with at this point fugg it playlisting and selling your playlist to a site if you get so many followers likes i was bored it was after carti made WLR i figured i might be able to catch some people organically and use the method as you can see on my liked songs i haven't been on there since LOL. Like i said i can show you proof video chat voice chat all we need is @OP to post video

of those even just show \$1 payment cause im this multi-scammer right sooo he would have the transaction. If he doesn't then what if his pic is proved fake then what if everything he said is a lie Then what? That means the link never is there we not mutual friends cause I never had him on discord and i know you guys probably looked when looking at that youtube. SO you can't say that i got people who will vouch this has been my name for years. Every way i can prove you reject so why not wait on OP to show some in depth proof?

I see obv you think HF is the only forum site it might be the only one you use but they have more out there bro. You trying to say offsite but literally that's your whole argument..... now you showing signs of double standards.

I think I've poked enough holes in all of the bullshit you've come up with, hopefully staff agree and prevent people on this forum from losing thousands to a scumbag exit scammer AGAIN. Please, feel free to continue posting paragraph upon paragraph of just complete and utter bullshit/nonsense and spineless excuses that are honestly quite fitting considering your obviously limited mental capacity. Cause that's not me yet again all OP has to do to prove its me is a VIDEO of him showing this and or a VIDEO of payment. How did he even get that discord like i need this explained look at his pic he said I "scammed" him but he obv photoshopped the pic. ALI that extra shit I been said i can prove everything on my end plus its Apple Pay so if he sent money he can pull it up on video cause it wont leave i want a VIDEO not some doctored photos. Since i'm not being aggressive and shit y'all think i'm lying i guess. See i'm still here like i said before even posted a pic crazy how HOURS after i send him my apple pay he magically has my applepay and random payment methods then blocked out what he said for what ? cause he obv is an inspect element or photoshop noob. I offered multiple ways to prove its not me but yall meat ride the most popular person cause i dont see any other thread wiith LEGIT SCAMMERS getting this type of treatment. Since I got a message from a member that Lil Wolf is still trying to do exchanges on this forum I will put an end to this all. This will be a lengthy read so I'll put a TL;DR at the end.

First of all, let's establish the link between 148 Gamer and his old account Lil Wolf. I'll start of by showing a vid of him sending his lilace148@icloud.com on his old Discord which he used to do exchanges with on his Lil Wolf HF account:

[Vid AceFlexin#8046 showing his iCloud](#)

Him using lilace148@icloud.com on a public contract on his old account

<https://hackforums.net/contracts.php?action=view&cid=238919>

This Discord ID(691348423378731018) matches Lil Wolf's Discord ID:

[Discord Lil Wolf HF](#)

Which also matches his Discord ID in previous scam reports like these:

<https://hackforums.net/showthread.php?tid=6097492>

<https://hackforums.net/showthread.php?tid=6093925&pid=59983288#pid59983288>

So how does this tie his old account to his current 148 Gamer account?

Well, he still uses lilace148@icloud.com to exchange, lol.

[Screenshot of Lil Wolf using the same iCloud on his new account](#)

You can find his current Discord here incase he edits his post, lol.

[Discord username 148 Gamer](#)

<https://hackforums.net/showthread.php?tid=6136374>

But this is not all lol. Let's go down this rabbit hole since Lil Wolf is so set that it's not him, lol. We already know that Lil Wolf isn't the sharpest tool in the shed. On his CURRENT account, 148 Gamer, he posted this:

[url=

Now, click on his profile '148 Gamer':

[Spotify Profile 148 Gamer](#)

Here you can see his public playlists.

Doesn't this pic look similar? It's the same pic he's using on his Lil Wolf Discord, lol:

[of his Discord Profile Picture](#)

But that's not all lol. Lo and behold... we see lilace148@icloud.com again!

[Screenshot lilace148@icloud.com on his Spotify playlist](#)

By now he should be doing damage control, deleting everything he can find. It's honestly disgusting how he keeps trying to think he can outsmart everyone. Let's visit his Instagram, which he publicly put on his Spotify playlist:

[Instagram](#)

This links to his SoundCloud:

[SoundCloud](#)

What else can we find on here? Well. He has a song with Kato:

Why am I bringing this up? On his banned account, he posted this. lol.

<https://hackforums.net/showthread.php?tid=6106827&pid=60159154#pid60159154>

Must be a coincidence right? He made a song with Kato on his banned account too!

Let's dive a bit further. From his SoundCloud, we can go straight to his twitter since he linked it.

https://twitter.com/ace_flexin

[Twitter screenshot since he will delete it](#)

This is when the circle becomes full circle. Keep in mind, we found everything above from the posts from his CURRENT account '148 Gamer'.

https://twitter.com/ace_flexin/status/1303537881856835586

That's him talking about his armed robbery case that he did 4 years for. His name, Chester, is written in it multiple times. This also shows the police department that dealt with this case. Oh and, he shows a chase bank with 300k on it to flex on everyone. Lol.

What message did Wolf send on the 9th of September?

Who also made a post about being a convicted felon that just came out of jail from a 4 year sentence?

Take a wild guess...

Our Littlest Wolf! This is his first post on his banned Lil Wolf account:

<https://hackforums.net/showthread.php?tid=6057378&pid=59526141#pid59526141>

He doesn't shy away from telling you that he did an armed robbery, which he also said multiple times on discord:

[Discord screenshot](#)

He also mentions he is from New Orleans, which checks out since he has Slidell, LA put on his Twitter Bio, which is right next to New Orleans

[Twitter Bio](#)

That pretty much concludes everything, I can't imagine how stupid you have to be. You literally did a four year sentence, only to leave so much information out in the open. He's scammed well over 3k on his previous HF account. He will do the same, farm rep, currency exchange, then exit scam. Also, looking at the post history of his 148 Gamer account, he went from posting a welcome thread to commenting under scam reports. Now, what new member would go straight to the deal dispute center? Lol. It's super obvious.

TL;dr

Wolf is still using the same iCloud to exchange. He also left the iCloud on his public playlist.

Cause that Applepay is what even started this link shit nothing else concretely is mine and he keeps linking a discord with different Unique ID as the acc he linked which was verified september.... sooooo why is this linked to me? the discord holds no weight i wanna see payment to THE APPLE PAY thats on the public contract here on video in his statements that'll shut us BOTH up.

He's talking to himself he did post that but look at the date even FURTHER back ... so its been posted multiple times show me the transaction we all know you can't fake a screen record going in your apple pay statement and then clicking the transaction.
