Posting to provide a quick review -

The seller was quick, responsive & friendly.
Definitely a unique service available here on HF and I would definitely use it again in the future.

The rates for the awards seem very reasonable.
\$0.50 for 100 Bytes which equals 100 Reddit coins.
(Market rate of \$5/1000 Bytes)

My quick review is only for the awards segment, didn't ask him for the aged account.
However, considering the type of seller he is - he will definitely deliver without any issues.

Good luck with sales!!!

Regards,
Wolf.

My review of the service:

I was given an option to get gold on one of my posts/threads on Reddit
The seller was super quick, responsive & friendly.
All I had to do was send my username and the link to the post.

Proof :

Stanley - September 15, 2021, 11:55 am

I'm Stanley HF's helper bot. This OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
