Thread: [How can I recover old PMs?](#)

newvibe - February 5, 2021, 12:45 pm

I'm on the hunt for a wallet address that I owned and I can't find it anywhere and I remember sending it to someone here on pm's around 2013/2014 and I just realised all of my pms have been deleted.

does anyone have any idea on how to recover my old pms?

ouch!

What about the request data option, is that checkpointed too?

Hopefully, you find your address somewhere else but that isn't going to be on HF. Those PMs are long gone.

no problem, guess gonna keep on searching.

edit: gonna close the thread.
