Thread: [What features you want in a free crypter?](#)

Hopsin - February 6, 2021, 1:17 pm

Hi, just wondering.

As the title says, I'd like to see your preferences. Please note that this thread is about FREE crypters in general.

Here are few examples:

- >With FUD/UD rate
- >With Binder
- >With File Pumper
- >With Junk Generator
- >With assembly
- >With Injection
- >With persistence
- >With Add to StartUp
- >With Worm Creator
- >With Plugin System
- >Without dependency
- >Without features but nice interface (GUI)
- >With high compatibility along OS and/or Apps

and so on...

Please Add these on the free version OP.

FUD/UD rate

With Binder

With File Pumper

With Junk Generator

With assembly

With Injection

With persistence

With Add to StartUp

With Plugin System

Wouldn't Mind also other encryption methods like other cryptors i've seen.

But if you don't it's alright your still awesome for doing this for the community! ?

i am gonna also publish an free version from my premium version of crypter, it will be FUD Scantime Runtime on release but with less features rather premium.

Plugin system is an good idea to add

and so on...

With USG

With EOF

and so on...

Doesn't it show up in the advance task manager any ways?

i believe injecting to a process is a better solution unless im wrong here. But could be useful.
