Thread: [Free $$$] Upland Blockchain Property Game

Hashin - *February 7, 2021, 6:39 pm*

Hi! Check out Upland, a virtual property trading game. If you use this link, Upland will award you with a bonus for your first purchase https://r.upland.me/wLas

I have been playing for a few days now and I am obsessed. There is a SERIOUS potential for money to be made. I've made $80 already in my time with only depositing around $150.

Keep in mind you only get the bonus on your FIRST purchase, so do some research before buying in. It may be worth it to purchase more your first time around. I made the mistake of wasting my 50% bonus on a $5 buy-in.

Become one of the first digital land owners in Upland's OPEN BETA by purchasing a virtual property mapped to a real-world address. Receive special rewards by completing signature property collections, participating in daily treasure hunts and live events. Ready to climb the leaderboard?

Join a new economy where you have the opportunity to make money in the virtual and the real world. Start out by earning a return on your properties and collecting fees from visitors. Flip some of your properties for profit in the open marketplace. Create an income by running one of the many upcoming businesses in Upland. Ready to become a mogul?

Socialize with fellow Uplanders in Discord and Telegram, and soon in one of Upland hang-out spaces like virtual coffee shops. Learn about best practices, strategies, tips and tricks, also by taking a look at the broad content of Upland's Contributor Network . Make friends in Upland, make friends for life. Ready to join the community?

Work with like-minded Uplanders to develop a city's neighborhood and build new homes for you and your friends. Pick from a variety of possible architectures and add to your property the house you have always dreamed of. Ready to give your city a new look?
