Dyor.

Imo if a lot of people won't wake up, in 2 to 3 years we will live in a society where there is no freedom left.

What are your thoughts?

What are these pics lmao, they really don't help anyone's causes! But also, who decided those are the goals of the UN? I'm not saying they're angels, but like come on.

The first picture of the UN are the things they are working on. The 2nd picture is basically what it all means. All those things basically mean you'll become dependent of a global government. Some think this is a good thing. Other people see this as giving up your freedom.

Just lookup Agenda 21 for dummies and you'll be surprised: [Video: <https://www.youtube.com/watch?v=TzEEgtOFFIM>]

The wordt "conspiracy theorist" is already a word created by humans so everything that is not the same as the system tells it. It will automatically become a conspiracy and it'll be thrown into the bin. I'm sorry I'm not a native English speaker so I'm not sure how to pronounce it correctly but I hope you understand what I mean.

The patent 060606 by microsoft is a real thing and is officially accepted, The great reset by the people in Davos is a real thing. The agenda is a real thing. They are all screaming it from the rooftops but the people aren't looking into it because they're being manipulated by the corona measures (Corona is being used as a manipulation tool)

In other means, dyor. I hope people will eventually wake up and see whats really happening on this planet before it's too late.

It's not only this microsoft thing. It's all connected to eachother.

Ofcourse you grow out of it because thats what they all want lol, It's called a blue and red pill.

I've heard & seen things from insiders in the army and government in my country to know what is happening. I'm not blindly following some dude on YT.

If nothing changes within the next 3-4 years. You won't be able to do a lot of things without the need of a vaccin. If you're going to put that inside your body be my guest but a big nono for me

I have the same situation with some friends, and I'm 30 also. I think it just gives some people a sense of purpose and something to focus on because it helps explain why they aren't happy or as successful as they'd like to be. Like no insult to anyone that might apply to, but a lot of the time it's just a place to direct frustration. It's why early societies made up gods and magic beings from the skies, because it helped explain things they couldn't understand or control themselves.

If you wan't to live like the social norm, then ofcourse just do as the media tells you to do.

It has nothing to do with a purpose in life. It's about the truth coming out. You're saying everything on the news and everything you're seeing is all correct?

These ads are already in the UK:

Some people just don't want to know the truth and live a life where comfort takes over

Thats literally what I kept hearing when I was into this stuff, and guess what? I stopped caring about all this bullshit and started living my life and achieving my goals has the Agenda interfered with it? No, Did something happen when I stopped watching these dumb videos? No, Am I Brainwashed? No, I was when I kept listening to some tinfoil idiots on youtube, Like I said, You will grow out of it. The best to you.

It's a shame honestly because if a lot of people used the effort they put into 'researching' things into helping others, we'd all be better off, but people would rather be angry than united. I don't discount

all conspiracies as it were, some are valid and some are based in reality to some degree, but the vast majority are nutcases supporting each other and creating echo chambers that justify every paranoid thought. It's also an ego thing, thinking they're so important that governments and super intelligent people wish to spend their precious time and resources on tracking and managing them!

So tell me. What are you going to do when they will restrict you to fly to another country because you haven't had the vaccin. Or they restrict access to stores, hospitals etc, just because you don't have the covid passport/vaccin? (assuming you make your own choice of not putting in a needle in your body like the government wants you too).

I'm saying they won't literally tell you: "Sir, you are required to have a vaccin in your country". No they will tell you: "In order to make flights, you'll have to have certificate to show us that you've took the vaccin". Thats not directly requiring it. It's indirectly requiring it.

You smoke too much weed and go down too many rabbit holes on youtube.

I don't smoke? & I check youtube maybe once a week. I also don't follow the news because it's all propoganda. In my country the news is here to check the government and be independant. But the government gives the media money so where is that independance

Im gonna get vaccinated just like everyone has after a Pandemic during the history of our species, U notice how you dont have polio and how you werent born badly deformed? U know why that is? EXACTLY people got vaccinated to get rid of it, Oh no but THIS vaccine is different this is being used to control you bla bla bla, Same as H1N1 conspiracies that ended up not being true, Literally the same argument, This may be your first go at this and thats why you believe all this bullshit, Like I said, Once you go through this a couple times u understand not everything is a conspiracy,

meanwhile u can believe whatever u want just dont spread stupidity between other people it makes u look bad.

You have all the right to decide that ofcourse. I can do whatever I wan't aswell. Maybe it's stupidity for you, maybe also for other people, and probably also people who don't think this is stupidity. Not everything is the same, not every vaccin is the same. Officially the vaccin is done in 2023, meanwhile the vaccin is being TESTED on humans. It's not that it's already proven 100% that it's a good vaccin. People are being used as rabbits. I've so many people in my direct surroundings, FAMILY & friends also in their thirties and forties that work in hospitals, some in the army, some have a government position and they all tell me and my family, aswell as their own family that some shit doesn't add up.

That to me is already enough. Why would they be lying. In my country the news says the IC is overflooded. My aunt says there are currently 5 people in the IC of the hospital she is working in ?

I'm also going to close this thread. We'll see in a few years what will happen. Just don't randomly believe that all people on earth have the best interest for the world
