Thread: [Bytes to Fate Poker Chips Exchange!](#)

NERO - February 9, 2021, 5:58 pm

Welcome to the Official Fate Poker Exchange Thread!

Thank you to everyone who has helped with the beta testing over the last few days! It's been fun playing cards with you all!

We are currently working on an automated system of cashing in and cashing out bytes to poker chips and vice versa however in the meantime this will be manually completed by myself (During UK times and early US time) or Cooligan (Late US time).

If neither of us are online it is possible to trade poker chips with other users who hold poker chips, This won't be a permanent issue but for the meantime this should be quite effective!

To play visit message me or Cooligan!

Cashier Status: Online

Conversion of Bytes to Chips is 1:1.

If you are wanting to exchange Bytes for Poker Chips use this contract and enter the amount of Poker Chips you are wanting.

For Cash in between 1-2000
